ABOUT ME

A software enthusiast with a keen eye for detail, driven by a passion for crafting innovative solutions. Seeking opportunities to apply my skills and contribute to projects that positively impact me.

INTERNSHIP

- **Web Development Intern - BrainOvision**
  June 2023 - July 2023
  As a web developer intern at BrainOvision Solutions Pvt. Ltd., I created a static E-commerce website named "BE UNIQUE".

PROJECTS

- **CAKE N BAKE :** **React Js, Node Js, Mongo DB**
  Cake N Bake allows the users to view and buy the bakery items from the website. According to preference of the customers they can add to cart and make checkout.

- **PORTFOLIO :** **HTML , CSS**
  My portfolio offers a glimpse into my journey, showcasing my skills, experiences, and accomplishments in the domain of web development. T

- **BE UNIQUE:** **HTML, CSS, Bootstrap**
  It is a E-Commerce website which provides the static view of an Online Shopping where users can glance the accessories , luggage bags , clothing and other products.

- **CAMPUS GUIDE :** **React Js , Node Js , MongoDB**
  Developed a dynamic website which describes the overview of Aditya University and shows the information about each and every campus
